12:45 Workout Session 2
3:00 Hike Mtn
3:30 Doug Lewis Speech
4:00 End Program

ELITEAM is coming to the Bromley Outing Club in Sept for a fun and informative dryland ski clinic that will motivate our young ski racers to push their limits! *ELITEAM*'s program will teach our athletes exercises that will help prepare them for the racing season. The kids will learn fun and innovative dryland techniques that they can do with their Coaches or on their own during the pre-season. They will also learn how a focus on sports psychology & nutrition can help them not only train more effectively, but **SKI FASTER**.

This *ELITEAM* clinic will focus on ski specific exercises that will give our young racers the tools to perform better from start to finish. Working on agility, coordination, footwork and rhythm will result in faster feet and better balance. A focus on strength and anaerobic capacity will pay off at the end of races. Finally, Olympian Doug Lewis will talk with the kids about how Mental Focus and Nutrition will translate into more confidence and better control on race day.

At the end of the clinic, Doug will talk to parents, kids and coaches about his thoughts on junior ski racing, World Cup athletes and share inspirational stories about his World Cup and Olympic experiences.

Don't miss this special event!

Participants should:
dress weather appropriate,
bring a change of clothes,
wear workout shoes,
bring a water bottle &
pack a lunch!
